

# Advanced Filtration Solutions

[www.satifiltri.com](http://www.satifiltri.com)

L'acqua è la forza che ti tempera,  
nell'acqua ti ritrovi e ti rinnovi:  
noi ti pensiamo come un'alga, un ciottolo,  
come un'equorea creatura  
che la salsedine non intacca  
ma torna al lito più pura.

Eugenio Montale

*Water is the power that tempers you,  
you find yourself, renew yourself in her:  
to us you're seaweed or a stone,  
a water creature  
salt can't corrode  
that shows up all the purer on the shore.*

Eugenio Montale

SATI da quasi quarant'anni si prende cura dei sistemi di filtrazione di molte delle più importanti imprese sul territorio italiano ed internazionale. Nel corso degli anni la continua ricerca di nuove tecnologie e la costante collaborazione con i nostri clienti, per la realizzazione di soluzioni **customizzate**, ci hanno portato a sviluppare sistemi innovativi sempre più performanti ed in grado di far fronte a qualsiasi esigenza di filtrazione negli ambiti Oil & Gas, industriale, Power & Energy e municipale. L'obiettivo comune di tutto il nostro team è l'ottimizzazione dei processi di trattamento dei liquidi massimizzando il rendimento degli impianti.

*SATI has been taking care of some of the most important Italian and International companies' filtration systems for almost forty years. The continuous applications and consistent collaboration with our customers, for the realization of custom solutions, have led us to developing and employing top-end materials, enabling us to produce high performance systems in order to satisfy the most extreme needs within Oil & Gas, Industrial, Power & Energy and Municipal sectors. The aim of our team is reaching the maximum optimization of treatment processes, maximizing equipment's performance.*

SATI S.r.l. è presente in ambito internazionale ed opera in regime di Qualità secondo EN ISO 9001:2015, nel pieno rispetto delle politiche ambientali.

SATI S.r.l. enjoys an international market presence and complies with EN ISO 9001:2015 quality standards, fully respecting environmental policies.

## CAMPI D'APPLICAZIONE - APPLICATIONS FIELDS

Produzione di energia  
Power & Energy

Petrochimico  
Petrochemical

Oil & Gas

Metallurgico  
Metallurgical

Minerario  
Mining

Elettronico  
Electronics

Automobilistico  
Automotive

Chimico  
Chemical

Farmaceutico  
Pharmaceutical

Plastica e tessuti  
Plastics & Textile

Cartario  
Pulp & Paper

Processi alimentari  
Food & Beverage

Acquacoltura  
Aquaculture

Acque reflue  
Wastewater

Trattamento acqua di mare  
Sea water treatment

Acqua di zavorra  
Ballast water

HVAC/R

Municipalità  
Municipal

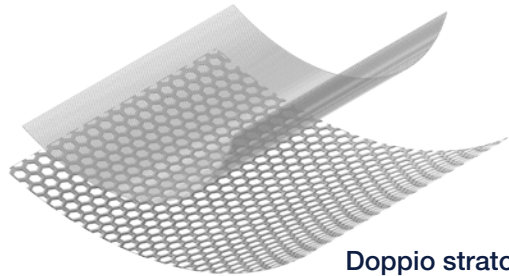

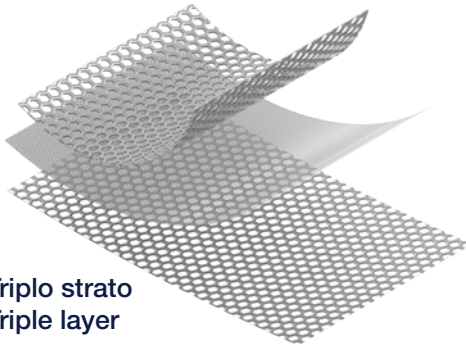

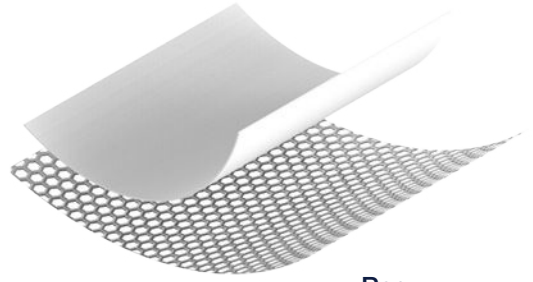

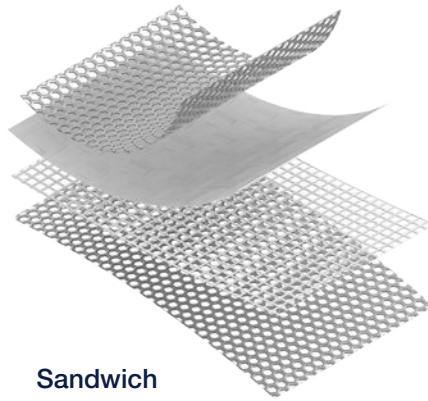

Piscine ed impianti sportivi  
Pools & Sport facilities
